New

Rayner's Plastic Mulch System - Gives Ripe Strawberries
60 Days After PlantingTHE PERFECT METHOD FOR HOME GARDENS. NO MORE
WEED PROBLEM — NO MORE DIRTY BERRIES — NO MORE
ROTTED BERRIES.

Plant two rows 12 inches apart with 12 inches between plants. Stretch plastic above, cut slits, and pull leaves through. Do not remove blossoms but keep all runners removed. You will be amazed at the fine berries. They are of much larger size and better quality. Yields are outstanding. Write for folder giving full information and diagram for Rayner's Plastic Mulch System.

Standard size Black Plastic, 28 ft. long and 3 ft. wide is \$1.25 plus postage. (Shipping wt. 2 lbs.) Write for prices on large quantities and other sizes of plastic.

New

Rayner's Netting for Positive
Protection From Bird
DamageTHE ONLY PRACTICAL METHOD TO PREVENT BIRDS FROM
DESTROYING BERRIES. DOES NOT HARM BIRDS.

Plastic Netting of 1/4 inch mesh will last for many years. Merely lay on top of strawberry row and place stones along edges.

Available only in sections 28 ft. long and 6 ft. wide. \$5.60 plus postage. (Shipping wt. 1 lb.)

Rayner's also have another Netting of resistant Kraft Cord. It has 1/2 in. mesh and will give full bird protection. Protect-O-Net is 20 cents per running yard of 40 in. wide material. Shipping weight of 10 yards is 3 1/2 lbs.

Dear Friend:

Thanks very much for your inquiry; we are mailing you a copy of our 1959 catalog under separate cover. Sending you this folder by first class mail, along with our No. 15 Better Berries bulletin so you would have our list of varieties and prices promptly. We hope you find the bulletin helpful. This is a service we supply our customers free. If you want the complete 15 copies we have published, send us 12¢ for mailing cost.

Our catalog should arrive in a few days and we trust you find it interesting. We shall be looking forward to receiving your order, and you may rest assured we will send you top quality plants. In fact we guarantee all our stock 100% satisfaction or your money refunded.

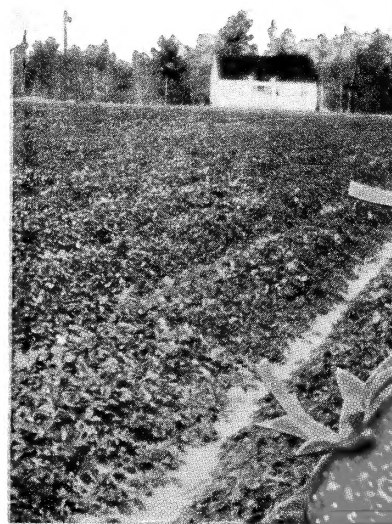

Yours for better berries,
H. Jack W. Rayner, Pres.

MINIATURE ROSES

PLANTS GROW
6" - 12" TALL

These fascinating plants are true Roses, they have tiny thorns, lovely buds, blooms, foliage, etc. They are like hybrid tea roses except in size. The full grown plants are only 6 to 12 inches tall, and the largest bloom is only about an inch across. They are quite hardy and free blooming from spring to fall. Will thrive in any good, well-drained soil. Fine for potting as house plants. **\$1.25 each; 4 for \$3.95. Shipping Weight 2 lbs. for 4 plants.**

TOM THUMB: (Patent 169). Tiny Brilliant crimson buds and blooms, accented with white base. Rarely grows over 8 inches in height and spread.

POMPON DE PARIS: This variety is free flowering, hardy, the plants are compact, bushy and low growing. Bright pink double blooms no larger than a dime.

JOSEPHINE WHEATCROFT: Pretty buds open to clear yellow, semi-double flowers and change to clear cream with age. Average height is 12 inches.

PIXIE: (Patent 408). This is a fully double white rose. One of the tiniest; blooms are only about 3/4 inch across. Buds sometimes have pinkish tinge, but generally are pure white. Very free in blooming, quite hardy, blooms from early spring until fall.

PRESUMIDA: A recent introduction, produces a bright orange bloom, both the buds and flowers are beautiful, are quite hardy, and free bloomers.

Make ideal house plants.

ASPARAGUS

Mary Washington Roots

Favorite heavy yielder developed by the U. S. Department of Agriculture. The best you can plant for high production and quality. Our MARY WASHINGTON is from the "Roberts" seed selections, very early, a strong grower, and produces shoots of finest quality, more uniform in size, shape and color than others. Healthy green color, rich flavor and juicy tenderness.

50 to 100 roots supplies an average family. 200 roots will take care of canning, freezing needs, too.

Chinese Chestnut

HARDY BLIGHT RESISTANT

Here is the most popular of all nut trees. In a short time it becomes one of the most beautiful trees on your place and you'll look forward to each Fall Harvest Of Delicious Nuts.

Chestnuts fully as good as native American and larger in size. Production begins in two or three years after planting these new blight resistant trees. Vigorous, fast-growing in a wide range of soils. Train easily to single trunk type.
